

- Prima imagine arata cum se pot extrage date dintr-un fisier Excel, datele sunt extrase sub forma de string.

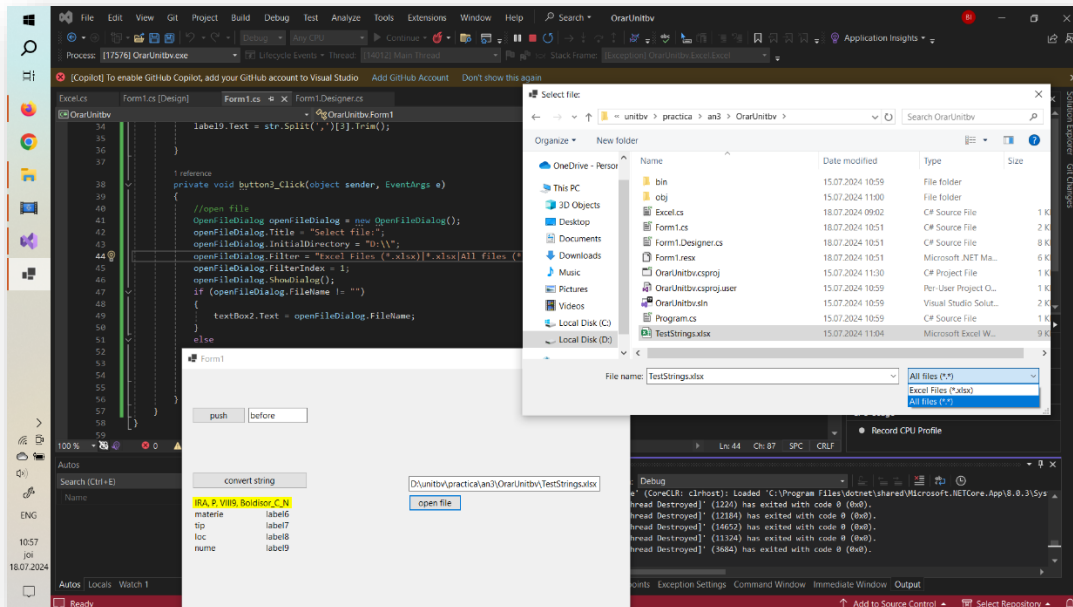

- A doua si a treia imagine ilustreaza cum se face trimm-ul pentru string-ul care contine numele profesorului, activitatea pe care acesta o desfasoara, locul unde se tine activitatea si tipul activitatii(curs, laborator, seminar).

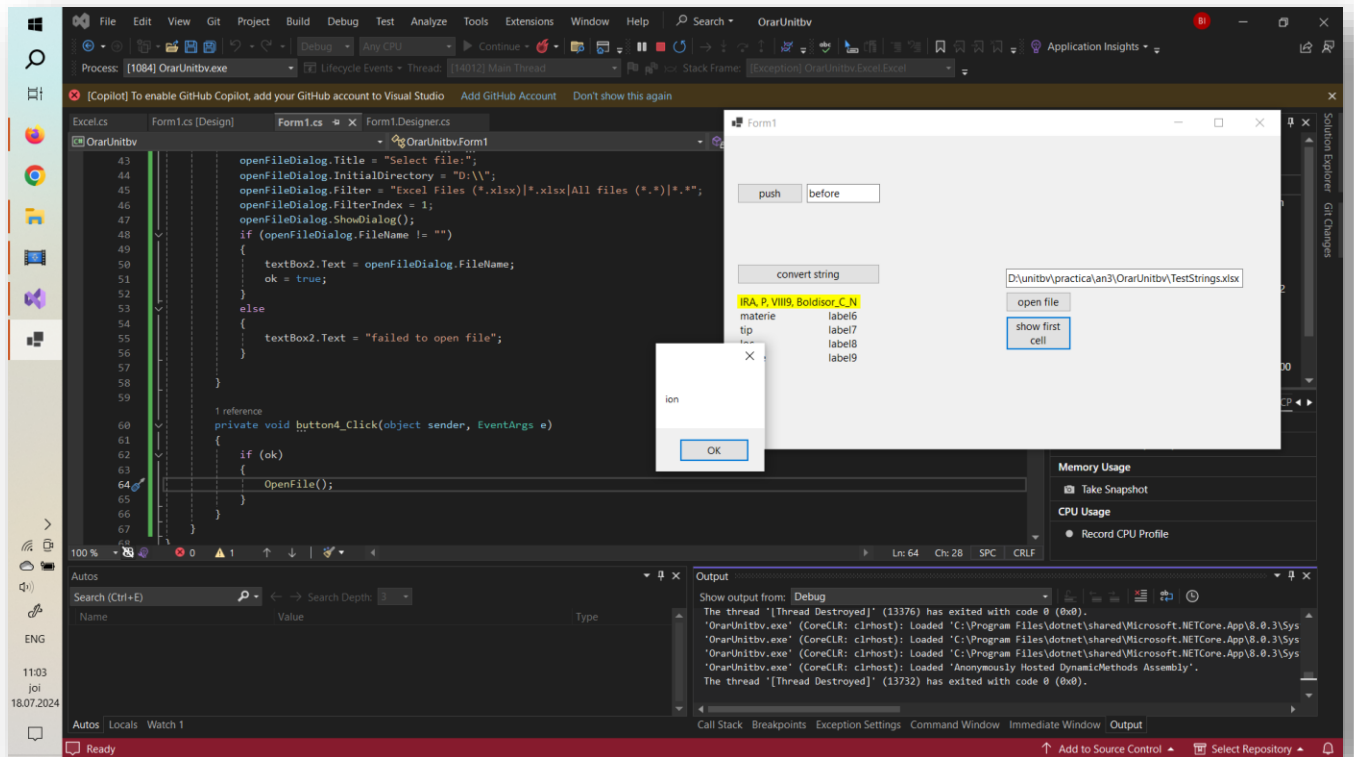

Rezumat 18.07.2024

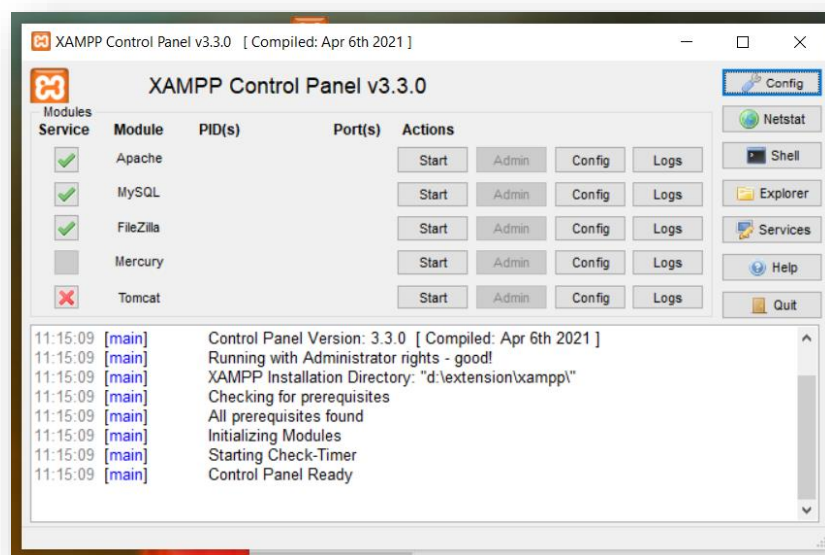

- A patra imagine cum se poate alege o cale dinamica pentru fisier, iar imagina ulterioara cum se face aceeasi "interogare" pentru fisierul Excel.

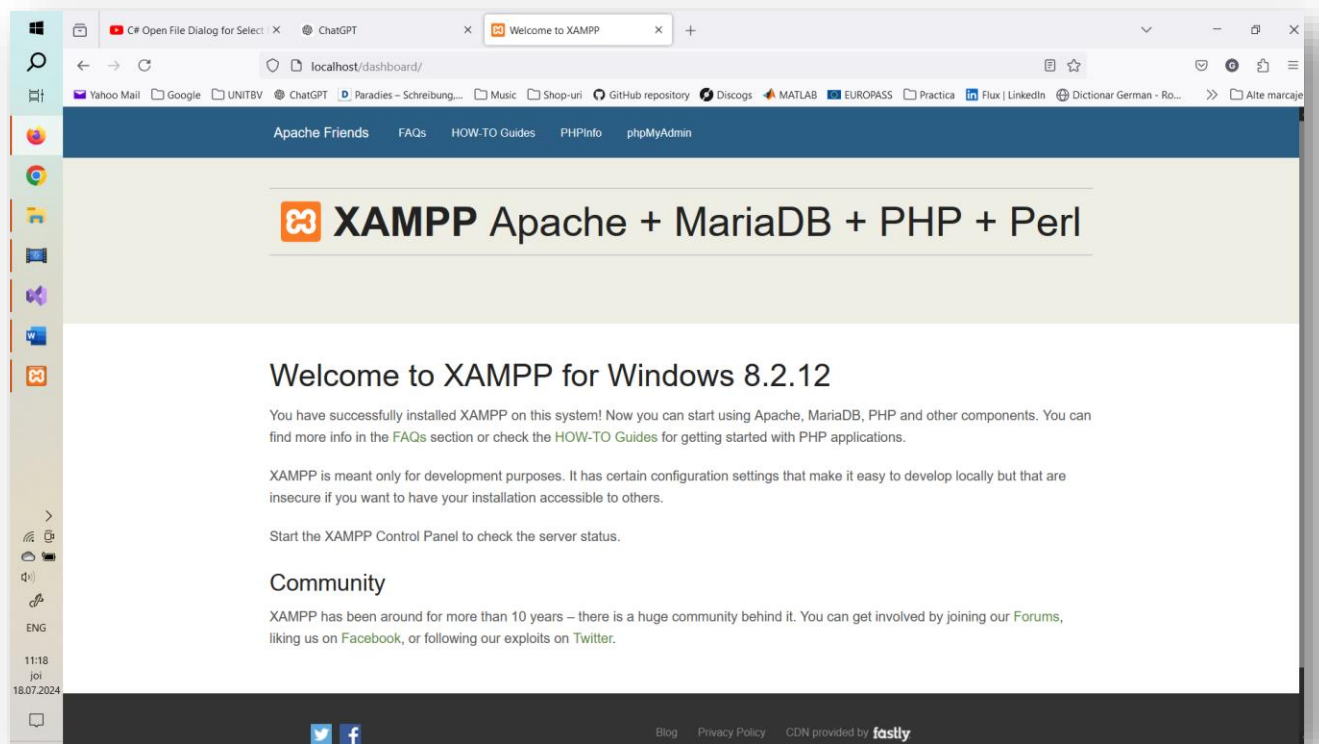

Rezumat 18.07.2024

- Am instalat Xampp. Ramane sa vad cum le pot lega pe cele doua, aplicatia Windows Forms si interfata web a Xampp-ului.

- O sa trimit zilele urmatoare cum cred eu ca trebuie sa arate baza de date.
